

CHT-BeauSil™ WAX 040 Modified siloxane as an ingredient for Personal Care.

Description

Silicone waxes are more than an emollient in Personal Care. Silicone waxes are alkyl modified polydimethyl siloxanes that act different than classic silicone fluids in formulations. Outstanding performance is created by the alkyl modification which result in unique physical and chemical properties.

Key Features

- Enhances spreading and solubilizing of natural lipids
- Emollient and Conditioning agent
- Reduces tackiness
- Cleansing effect

Key Applications

- Hair Care
- Skin Care
- Color Cosmetic
- Sun Care

Application

CHT-BeauSil™ WAX 040 is a liquid silicone wax used in personal care applications like sun, skin and hair care formulations or decorative cosmetic. Its surface activity in many organic media enhances the spreading and wetting behaviour of formulations. It creates a pleasant skin feeling combined with improved shine.
